

Welcome to the 17<sup>th</sup> annual Wayne County Challenge end of season celebration. I'm Brian Schleeper, race director of the IU East Run with the Wolves 5K. Tonight we're here to honor the overall and age winners from the 2019 season and to recognize everyone who completed all eight races of the series. While we're here tonight to look back on the 2019 season we also want to mention that the schedule for 2020 is set and there were schedule cards on your tables which you're encouraged to take and share. We are once again offering the Carpe Viam special which allows you to enter all eight series races at once, at a discounted rate. This year the program is available again for \$130, a savings of \$30 over the course of the year on pre-registration rates and \$70 off day of registration prices. In 2020 we're offering a new Youth Carpe Viam package for \$100 for anyone fifteen or under. We hope this will encourage more youth to participate in more events.

Signing up for the Carpe Viam program insures that you get a shirt or other swag from each race. Online registration for both Carpe Viam specials is now open by going to the WCC website, [wcchallenge.org](http://wcchallenge.org).

There will be one other significant addition to the series this year. We are happy to announce the modification of our age group categories to include a new 75 and above group for both men and women.

This is in response to increased participation in these age groups and our desire to offer recognition of these individuals.

The 17<sup>th</sup> season of the Wayne County Challenge was another excellent year and as usual we had some firsts. We have 17 first time winners, almost half of the people who'll come up to the stage. We also had the continuation of some impressive streaks. This is usually the point in this speech where I talk about the impact participation in WCC events has on our community. These races are all put on by local non-profit organizations who use the funds to help further their missions. And of course everyone who runs or walks gets increased health benefits which is the original intent of the WCC. But this year I'm going to share someone else's words on their reason and motivation for participating in our events and the impact it has had on them. Many of you know Dale Bolser from his years running WCC races, in fact he has been with us since our first season in 2003, when he incidentally finished as the third overall male. Dale has won numerous age group titles and completed all eight races multiple times over the years. But that's not the reason he shared with us for continuing to participate. Those of you who know Dale also know of his recent health challenges and of his continued determination, positive attitude and inspiring story. In Dale's words, and shared with his permission, these are his motivations to run.

*I suppose that many of us who run have been asked (by someone who doesn't), "Why do you run? Why would you choose to 'punish' yourself in such a manner nearly every day?" Most of us would respond, "I enjoy it...." Others would mention the Thrill of "competing." Some might share the "sense of accomplishment."*

*Each is indeed a true statement. For me, all of these 'reasons to run' are quite true. But, when sarcoma cancer became part of my life in the fall of 2011, I learned why I run.....Really. People.....the people. Sure, medals & trophies are nice. Many though, go into a box, a drawer, or a display case. But, it's the people that make running such a gift. The WCC is about people.....who choose to 'challenge' themselves to live a healthy lifestyle through running.*

*In doing so, we meet new people who become our friends. We greet each other, encourage one another.....at every event. When I was unable to participate in the 2011 Frostbite 5K Run, due to chemo treatments, a friend and fellow runner took it upon himself to gather my packet and place my shirt outside the registration area for anyone to share their support. This.....is why I run.*

*I'm not as fast anymore, as I once was, most of my 'runs' are jog/walk efforts...the result of multiple surgeries and countless chemo treatments. But, it doesn't matter.....it's actions of 'people' such as this that makes the WCC what it is today. People, striving to be healthy & helping others to become healthier too. Each of us can make a difference. Not only in our own lives but in the lives of others as well. The WCC is about people.....helping other people. And these people.....are WHY I run."*

We appreciate Dale sharing these inspiring and motivating words and we couldn't have said it better ourselves.
